REQUEST FOR CONTINUED EXAMINATION AND SUPPLEMENTAL RESPONSE

Commissioner of Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

Applicant files this Request for Continued Examination and Supplemental Response to the Final Office Action mailed July 28, 2004. Please consider this paper a Petition for a five-month extension of time.

Reconsideration and allowance of the subject application are respectfully requested. Claims 2-131 are pending in the application.

Submitted with this Response is new, non-cumulative scientific evidence further demonstrating the existence of lower energy states of hydrogen in a number of different ways, including, but not limited to, studies of spectroscopic lines, energy output, compositions of matter, generated plasmas, and inverted hydrogen populations. As detailed below, Applicant also identifies independent third-party data pursuant to the PTO's agreement, which evidence resulted in verbal confirmation by Examiner Wayne Langel that two BlackLight applications formally handled by him were allowable before he was told to misrepresent that fact and, thus, was forced to resign from examining those cases "for moral and ethical reasons."
